# FINAL CHAPTER OF TERMINAL ROAD.

California Improvement Company at a Meeting in St. Louis Merges the Property Into the New Line.

[BY DIRECT WIRE TO THE TIMES.]

CT. LOUIS (Mo.,) Jan. 14.--[Exclusive Dispatch.] A special meeting of the shareholders of the California Improvement Company was held today. This company owns and controls the Los Angeles Terminal Railroad, San Pedro Harbor and Los Angeles Terminal Land Company. Being an Illinois corporation, the meeting, in accordance with the statute, was held in East St. Louis, although local capitalists concerned in the enterprise reside in St. Louis.

The shareholders, by unanimous vote, adopted a resolution authorizing the transfer or merging of the Los Angeles Terminal property into the San Pedro, Los Angeles and Salt Lake Railroad Company. The price agreed upon was \$2,500,000 in bonds of the new company and \$2,500,000 in common stock. The Board of Directors will meet at once for the purpose of carrying out the details of the transfer, when the title will pass to the new company.

The action taken wipes out the Los Angeles Terminal Railroad Company, with all its property, franchises and appurtenances, and brings about the immediate incorporation of the San Pedro, Los Angeles and Salt Lake Railroad Company, paying up 10 per cent. of the capitalization of the new enterprise, under the laws of Utah. It is the last chapter in the history of the San Pedro Harbor contest, which was fiercely conducted for many years by C. P. Huntington and the Southern Pacific Railroad Company on one side and the Southern California Interests on the other. It is predicted that one of the finest harbors on the Pacific Coast will be completed by the time that the Los Angeles and Salt Lake enterprise is carried through. An outer, or protection harbor, will be formed, with an inner harbor for commerce. It is said, likewise, that a naval coaling station for warships will be established at San Pedro, together with dry-docks for repairs.

The plan of the new company is to go ahead at once with the construction of sixty miles of new line from Los Angeles to Riverside, and thence twenty miles to Redlands. The right of way is being secured, and grading work will soon commence. The company has secured ten acres of ground in the heart of Salt Lake for terminal purposes.

IBY THE NEW ASSOCIATED PRESS-P.M.1 WASHINGTON, Jan. 14 -Gen. Ma.

WASHINGTON, Jan. 14.—Gen. MacArthur's telegram to the War Department is as follows:

"Delgado, commandant-in-chief of Ilolio province, Panay, surrendered January 11 to Brig.—Gen. Hughes, with 4 officers, 21 men. 41 rifles. His command was scattered. Other surrenders expected during the next few days, important; signs end organized resistance Ilolio, province Panay."

The dispatch gave much satisfaction to the War Department, although the command surrendered is not a large one. It was also noted by the officials that the assurances were for the end of the "organized armed resistance" indicating that there was considerable of the unorganized marauding in progress.

"Twenty thousand men," said he, "will have to cross the Pacific before the last of July, and yet the Senators here are discussing matters that were settled long ago. I beg you let this bill go through, and to start the work of raising troops to relieve the boys in the Philippines."

An amendment was offered by Mr. Teller of Colorado to that section of the bill which authorizes the President to retire any officer who has been suspended from duty either by sentence of court-martial or by executive order in mitigation of such sentence, striking out the words "has been" and substituting therefor "shall be hereafter."

After saying that the section had been incorporated in the bill for the purpose of enabling the President to retire Gen, Eagan, former Commissary-General of the army. Mr. Teller declared it was retained in the bill in order that an officer of the army, Maj. Joseph Wham, might be gotten rid of, "He might be gotten rid of in any other way," said Mr. Teller, "and he ought not be gotten rid of in any circumstances."

HOUSE PROCEEDINGS.

WASHINGTON, Jan. 14.—HOUSE.—
When the House met today, Mr. Loud of California presented the report of the joint postal commission which has been investigating the question of railiway mail pay and other matters affecting postal affairs. This was District of Columbia day under the rules, but the District Committee yielded to the River and Harbor Bill with the understanding that the District should have next Monday instead of today. The debate on the River and Harbor Bill was then resumed.

Mr. Lawrence of Massachusetts a member of the committee, protested against the appropriation in the bill for great national projects being charged to the States in which they happened to be located. He cited the case of Boston Harbor, which received several millions in the bill. That improvement, he contended, would benefit all sections of the country, as less than 10 per cent. of the cargoes of ships entering and leaving Boston were chargeable to Massachusetts.

Mr. Grosvenor, who was formerly chairman of the Committee on Rivers and Harbors, replied to some remarks made by Mr. Cushman of Washington, Thursday, relative to the appropriations in the bill, arguing along the lines followed by Mr. Lawrence, that appropriations for big national projects could not properly be chargeable to the States in which they happened to be located.

FRANCHISE QUESTION.

The Southern California members, especially those from Los Angeles, are receiving scores of letters of inquiry on the franchise question. There has been a singular absence of inquiry from the Southern Pacific or Los Angeles Railway Company sources, but those interested directly or indirectly in the Traction line have written many letters urging that no final action be taken until the franchise bill now before the Legislature can be thoroughly studied. The bill in printed form will be ready for distribution tomorrow, and a large number of copies will be sent to Los Angeles. Senator Simpson of Pasadena, who introduced the bill in the Senate, was asked tonight who originated the measure.

"There is no corporate interest behind it that I know of," he said, "unless you include the interests of municipal corporations. You will remember that one of the weakest points in

nicipal corporations. You will remember that one of the weakest points in the present law is the fact it does not insure to any city an equitable financial return for the award of such a valuable right as some public franchises have been known to be. In Pasadena and in Los Angeles there was no certainty that a franchise under the present law would yield the municipality a cent. It is not fair to taxpayers to give away free a privi-NEW PASADENA CHARTER.

SACRAMENTO, Jan. 14.—The Governor today transmitted to the Legislature a copy of the report made by the Paris Commission. Accompanying the report is a message briefly calling attention to the fact that the commissioners have glied no vouchers as is required 'n section 3 of the act creating the commission. The report is very short, containing scarcely more than 1000 words, and recites that "a full report will follow in detail." Nothing, however, is said about youchers. The message and report are as follows:

The message and report are as follows:

The Assembly of the State of California: I have the honor to present herewith, for your information, a copy of the official report of the 'California Paris Exposition Commission, received by me since the transmission to your honorable body of my first blennial message.

"Bection 3 of the act creating said commission, approved March 20, 1899, reads as follows: "Said commission to return to the controller vouchers properly certified for all money expended by it."

"It will be observed from an examination of the provisions of the said act, creating said commission, that meither the Board of Examiners nor the Governor had any power of supervision over the acts of said commission, and the State Controller has informed me that no vouchers have as yet been returned to said officer.

Immediately upon receipt of their commissions these gentlemen proceeded to organise by the election of E. W. Runyon as president, and elected Varney W. Gaskill as their secretary.

"The exhibits of the State were collected with the utmost care; were duly forwarded and handsomely installed in five different departments and pavilions at the Paris Exposition, namely: Horticulture, agriculture, mining, forestry and fishery, these being the five groups in which the California commission principally exerted their energies.

"This State was allotted six jurors, one for each of these departments, and the different groups were divided into 106 different classes, of which California had a splendid representation in twenty-four of them. This State had an elegant display, consisting of a full line of all varieties of dried, canned, conserved, fresh and citrus fruits, raisins, nuts, wines, olive oils, cereals, wool, woods, leather, perfumery, maps, education, social economy and varied industries.

"The following summary of awards speaks for itself: Out of a total of 517 exhibitors from this State, 548 received awards at the hands of the international jury; thus it will be seen that of all our exhibitors received any mention. Including these awards he State of California sectured a grand, prise for its collection exhibits in each of the world's exhibitors received any mention. A petition from the California Miners' Association has been presented in both branches of the Legislature, calling attention to the necessity of securing immediate action relative to an appropriation of \$150,000, to be used with a like appropriation from the Federal government to complete work planned by government engineers for impounding mining and other debris in this State. The history of legislation to this end is exhaustively discussed in the communication, as is the position of the Federal government on the question. Bills making the appropriation required have already been introduced in both houses.

Senate Bill 178, introduced today, makes radical changes in the law relative to divorce proceedings. It provides that no divorce shall be granted for any cause arising prior to the residence of the complainant or defendant in this State, which was not a ground for divorce in the State where the cause arose.

A year's residence in the State is made necessary before the suit can be brought, and bona fide residence is required. ### LINCOLN DAY.

February Twelfth to Be Patriotically Observed as a Grand Collection Day

Observed as a Grand Collection Day for the Building of a Monument.

Tuesday, February 12, will be Lincoln day. It is to be made a great event in California, particularly in the public schools. This was decided upon last June by a convention of delegates from all parts of the State, representing the Lincoln Monument League. Lincoln day was fixed upon as a grand collection day throughout the State, when citizens who revere the name of the marvered President will State, when citizens who revere the name of the martyred President will be called upon to donate whatever sum they care to give for the build-ing of a Lincoln monument some-where in California. The followinging of a Lincoln monument somewhere in California. The following-named were appointed a committee by that convention to meet at some future date and select a place where the memorial is to be erected: Hon. Jacob H. Neff (Lieutenant-Governor.) Auburn; Judge M. Cooney, San Francisco; George W. Cox, Howland Flat, Sierra county; Frank W. Cushing, Oakland; Capt. A. F. Dill, San Diego; Robert Furiong, San Rafael; J. P. Greeley, Santa Ana; Col. C. Mason Kinne, San Francisco; Hon. T. J. Kirk, Sacramento; Gen. Harrison Gray Otis, Los Angeles; Hon. James D. Phelan, San Francisco; Judge Albert G. Burnett, Santa Rosa; Judge J. M. Walling, Nevada City; J. L. Winans, Petaluma; W. W. Stone, San Francisco. They can locate the proposed monument in whatever part of the State seems most desirable to them.

The Stote Superintendent of Public Instruction, Hon. Thomas J. Kirk, has issued a circular to the superintendents of schools and teachers of California, cailling attention to this subject, and suggesting that it may be advisable in each school to appoint a boy and a girl from the higher classes to act as a committee in arranging a programme, and in otherwise making the event a success. W. W. Stone, spresident of the Lincoln Monument League, No. 18 Second street, San Francisco, will furnish any information desired.

Says the circular: "The school children of the State are to have an opportunity to help along in the good work. There is to be a lo-cent subscription fund started, and pupils on Lincoln day will be allowed to give in their names and dimes.

"The story of Abraham Lincoln, of humble birth, 'ill-clad, and subject to all the deprivations incidental to frontier life, reading and studying by the light of a pine knot, and in that way preparing himself to perform the mission of saviour of the nation under the Providence of God, is one that appeals to every young American heart, and makes us all feel that the heroic virtue, the sublime tenderness, the indomitable energy of Abraham Lincoln demand a monument of imperishable mat

Lincoln demand a monument of imperishable material that shall overtop all others; not only that, but that his memory shall grow in the hearts of our youth, and be an ever-living and ruling incentive to the highest standard of American citisenship.

"Boys and girls of California! Take it upon yourselves to stir up this matter. Urge it upon your parents to remember Lincoln day, and do not forget that the dime of the pupil is an precious and as sacred as the dollar of the parent."

Gorgeous Decorations in Retired Church.

Ornate Ceremonial and a Grand Wedding Breakfast-Stunning Gowns.

BY THE NEW ASSOCIATED PRESS-A.M. NEWPORT (R. I.,) Jan. 14.—Al-hough in the depth of winter, this though in the depth of winter, this well-known watering place today took on a semblance of its summer galety because of the wedding of Alfred Gwynne Vanderbilt, probably the most wealthy of the third generation of the Vanderbilt family, and Miss Elsie French, a charming Newport girl and former playmate of the bridegroom, the daughter of Mss. Frederick Orme French, a resident of the city for many years. A brighter sun never shone for any bride, and in spite of a crispness in the air, it did not seem to be a winter's day.

shone for any bride, and in spite of a crispness in the air, it did not seem to be a winter's day.

The ceremony took place at noon in the Zabriski Memorial Church of St. John the Evangelist, far up in the old north part of the city, on Narragansett Bay, once the center of Newport's fashion, but now far removed from the social whirl of Bellevue avenue. Miss French made the choice of her own place of worship and her own home for the scene of the marriage, instead of selecting the more pretentious but less familiar surroundings which would have been found in New York. Under these conditions the hundred or more guests were, forced to make a journey to a city as quiet at this time of the year as an obscure country village.

The feativities, however, did not suffer from these unusual circumstances. The church, decorated with gorgeous lavishness, was only about half filled with guests, the invitations having been limited to relatives and close friends of the couple.

The service was as ornate as the highest forms of the Episcopal Church could make it; the wedding procession a picture of loveliness and fine gowns, and the breakfast, which closed the formal proceedings of the day, was one of the grandest ever served in this city.

and the breaking, which closed the formal proceedings of the day, was one of the grandest ever served in this city.

Although the ceremony was set for noon, an hour or more before that time saw the arrival of some of the guests at the church, and those who came about it o'clock had the pleasure of listening to an organ concert, and found leisure to marvel at the floral decorations. Pink, green and white in many charming combinations were the prevailing eolors, the distinctive flowers being the Gloire de la Reine Bengoras, the Golden Gate roses, with white azaleas and the specimen palm.

The center aisle was a lane of begonias and asparagus, standards eight feet high being trimmed with the feathery foliage of the asparagus at regular intervals from the estandards. Specimen palms thirty feet high towered high above the altar. Interspersed among the foliage which banked them were great clusters of white azaleas and medallions of Golden Gate roses. On the altar was an immense cross of Ascension tilies.

The programme of the organ concert which occupied the hour preceding the ceremony, was selected by Miss French. The choir boys of the church marched if quietly at 11:20 o'clock, and led in singing the two hymns assigned to them. The programme was as follows: Overture, "Tannhauser" (Wagner.) "Festival Prelude" (Guirand.) "Serende" (Schubert.)

Hymn, 'O Perfect Love' (Jeffrey.) Sung by the choir.
Coronation march, "Le Prophete" (Meyerbeer.)

VANCOUVER (B. C.,) Jan. 14.—[Exclusive Dispatch.] The Canadian Pacific Railway people are surveying for a railway between Vancouver and Chillwack. Work is proceeding under a charter abandoned years ago and quietly revived by the Canadian Pacific. This route is the exact one that quietly revived by the Canadian Pacific. This route is the exact one that the Cosst Kootenay road must take to get into Kootenay through Hope Mountains, and as the rallway acts of Canada will not permit parallel opposition roads, the Canadian Pacific has evidently stolen a march on the projected road, which would compete with it for the Kootenay trade.

It is evident that the big Canadian Pacific Railway corporation will nip the ambitious young Coast Kootenay road in the bud, in spite of the reported absorption of the Coast Kootenay road by the Great Northern.

GOV. MURPHY ON STATEHOOD, BY THE NEW ASSOCIATED PRESS—P. M PHOENIX (Aris.) Jan. 14.—Gov Murphy returned to Phoenix toda Murphy returned to Phoenix today after an absence of six weeks, in which he and other Arisona representatives were in Washington, feeling the pulse of Congress with regard to Statchood for this Territory. The Governor says that early ir. the session the Statchood advocates entertained l'ttle hope of securing admission at this session, because of the many more important measures in Congress, and because the Delegate from Oklahoma, who has presented more claims for admission than any of the other lerritories, manifested no disposition to press his demands at this session.

The majority in both of the houses, according to the Governor, favor early admission, and he believes Arizona claims will be acted upon favorably next session, although the minority opposed to admitting Territories is very active.

The kidneys filter and purify the blood—that is their work. So when your kidneys are weak or out of order, you can understand how quickly your entire body is affected, and how every organ seems to fall to do its duty.

If you are sick or "feel badly," begin taking the famous new discovery, Dr. Klimer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

Many women suffer untold misery because the nature of their disease is not correctly understood. They are led to believe that womb trouble or female weakness of some sort is responsible for the many ills that beset womankind.

providing in the joint resolution of annexation that the customs relations of the Hawaiian Islands with the United States, and with other countries, should remain unchanged until Congress should remain unchanged until Congress should further legislate on the subject was a violation of the provision of the Constitution that all duties, imposts and excises shall be uniform throughout the United States. "Third—As such joint resolution provided for the collection at the ports of the Hawaiian Islands of duties upon such articles sent thither from other ports of the United States, that was, in effect, a violation of the provision of section 9 of the constitution, that no tax or duty shall be laid on articles exported from any State."

Counsel argued that this case was not like others before the court recently, for the reason that there was not like others before the court recently, for the reason that there was no question involved as to the force or effect of a treaty, the government of the republic of Hawaii having; ceded its sovereignty to the United States, which cession the Congress ratified. There is no question of a military government. The isnguage of the Annexation Act provides that the islands were annexed "as part of the territory of the United States."

Smith then argued that in the five places where the words United States were used in the Constitution, with one exception, the term includes the States and Territories as well. The exception is that clause providing for the election of Presidential electors. After considering the application of the naturalization or bankruptcy laws in Territories and States alike, counsel said:

"It would be a strange view of langers and beld that the words "thought."

the naturalization or bankruptcy laws in Territories and States alike, counsel said:

"It would be a strange view of language to hold that the words 'throughout the United States' in Article I, section 8, were narrower or more limited in their scope than the words 'in the United States' in the Fourteenth Amendment. There is no principle of grammar, logic, law or common sense in which the words 'throughout the United States' in the uniformity clause with regard to the annexation can be restricted to the States, excluding the Territories.

POWERS OF-CONGRESS.

Powers of Congress.

"A long line of decisions by this court that certain fundamental limitations upon the power of Congress contained in the Constitution now in force in various Territories of the United States are those disposed of by those on the other side of this controversy by the statement that the Constitution operates in these Territories, because Congress has seen fit to extend it to them by its own act. In other words, they advance the doctrine that the Constitution has no force or operation in any Territory until Congress puts it there, and of course this logically implies that it can remain there only so long as Congress chooses to permit. In other words, those who hold that Congress puts the Constitution into the Territories cannot escape from maintaining that Congress has power at any time to take the Constitution out of the Territories.

If the Constitution operates today in Arizona, New Mexico and Oklahoma only because Congress has chosen to extend it to those Territories, must be within the power of Constitution shall no longer be operative in any of its parts in those Territories. Indeed, it is a question whether Consress tomorrow to enact that the Constitution shall no longer be operative in any of its parts in those Territories. Indeed, it is a question whether Consress would need even to go through that form. A special subsequent statute obviously repeals the latter (the Cherokee tobacco case, il Wall, 616, and therefore, according to those who are opposed to us in this case, Congress must have a right tomorrow to create an order of nobility in Oklahoma or to pass a bill of attainder in Arizona."

NO TREATY INVOLVED. POWERS OF CONGRESS

NO TREATY INVOLVED.

Counsel then said that cases had been cited wherein it was held that countries captured in war or ceded by treaty could be held as foreign until Congress had legislated to define their status. This, he said, would not help the government in this case, as the islands were not conquered or annexed by treaty but by legislative act. He said further "upon what authority can they be held after Congress has, by joint resolution, annexed them as a part of the territory of the United States, to be a country foreign to the United States? It is, true Congress had not so fully and completely legislated with reference to the islands as it might and did thereafter, but it has certainly legislated enough to make them cease to be foreign.

"It had not only annexed them as a part of the territory of the United States, but it had provided that the revenut from or proceeds of the public lands thereof might be used for the civil, military or naval purposes of the President to vest the civil and judicial powers in such persons, to be exercised in such manner as he might direct. It had, in effect, repealed so much of the municipal legislation of said islands as was contrary to the Consitution of the United States. It had prohibited the Chinese from coming from NO TREATY INVOLVED.

anus as was contrary to the Consitution of the United States. It had prohibited the Chinese from coming from
the islands to the United States, and it
had appropriated from the treasury of
the United States \$100,000 to carry out
the provisions of the joint resolution.
Is it to be said for one minute that all
these things were done with reference
to a foreign country? Let those who
maintain the other side of this controversy point out a single instance in
the history of the United States, either
before the Hawaidh annexation or
since, in which Congress has annexed
a place as a part of the territory of the
United States and yet treated it as a
foreign country."

foreign country."

PORTO RICO DECISION.

Smith then cited a treasury decision of April 47, 1900, holding that Porto Rico was not a foreign country, within the meaning of the drawback clause of the Dingley law, and asked why Hawaii should have been considered a foreign country at that time.

Counsel followed with arguments tending to show that the uniformity clause of the Constitution with reference to indirect taxes is one of the fundamental limitations upon the powers of Congress, and that in consequence the provision of the annexation act which continued in force the customs regulations of the republic was a clear violation of the uniformity clause. From this he went or to argue that in case the islands were considered foreign, any tax collected there upon goods coming from this country would be in effect an export tax, as there would be no difference whether a tax on goods going from a State to the islands were taxed at the point of shipment or at the destination, as the charge would lie from the time the good were shipped. The decision of the Supreme Court of Hawaii to the effect that the Constitution of the United States had been in force in the islands since August 12, 1398, was cited, and the argument closed thus:

"May Congress in legislating for territory which it has annexed as a

W. T. Stead's Interview With the Boer.

Lord Roberts Declines to be Feted-Wessels Denies Story of Flogging.

(BY DIRECT WIRE TO THE TIMES.)

Igy Direct wire to the times.

London, Jan. 14.—[Exclusive Dispatch.] The following is related by W. T. Stead concerning his visit to President Kruger in The Hague:

"No terms, however favorable, offered by Mr. Chambertain, Mr. Rhodes and Sir Alfred Milner will be accepted. They (the Boers) do not trust these men, and as one of them put it, would not trust them, even if they swore on a sackful of Bibles, to keep their promises. Do not suppose that this means there is no reality in Mr. Kruger's mission. Mr. Steyn takes precisely the same view as he does: That the two republies have been condemned to death, untried, except by their executioners, who hope to profit by their demise. They both equally wish to appeal against the death sentence, passed without trial. They would accept any impartial tribunal, and they are prepared to meet every accusation that has been made against them." This is the message Kruger was asked to carry to the world, while Steyn remained to demonstrate the other final fact that, without such trial or an equal negotiation, they intend to me on fighting until the last man

other final fact that, without such trial or an equal negotiation, they intend to go on fighting until the last man has fired his last cartridge.

"Kruger is, os he has always been, for arbitration, but he has never wished any other country to go to war on account of the Boers. He simply points to the fact that the amply points to be the enemy of civilization, and have constructed a method and machinery by which resort to it may be avoided. He wants to know whether these powers are in earnest, and he asks them to exercise moral pressure upon one among them which and he asks them to exercise moral pressure upon one among them which has just flagrantly broken its promise and falsified its professions; moral pressure to secure that the customs of civilized warfare shall be respected of civilised warfare shall be respected and that the two small nations shall not be extinguished without trial.

"I must confess that Mr. Kruger's terrible conservatism is standing him in very, båd, and us in very good stead in this crisis, for, as an eminent statesman, one of the delegates of a great power at The Hague conference, said to me: "That old man could shake Europe to its foundations." But he does not want to do anything so revolutionary.

"It is not my business,' he said, 'to

revolutionary.

"It is not my business," he said, 'to stir up people against governments. I have seen too much trouble arise through strife of that kind."

DOUBTS THE FLOGGING.

WESSELS DENIES THE REPORT.
BY THE NEW ASSOCIATED PRESS—A.M.:
GRAND RAPIDS (Mich.,) Jan. 14.—
P. L. Wessels, one of the Boer envoys
to this country, today said to the As-

to this country, today said to the Associated Press regarding Gen. Kitcheher's dispatch as to the flogging of three peace commissioners by Gen. Dewet, near Lindley, last week, and the shooting of them:

"I am certain the report is false. Such an act is contrary to Gen. Dewet's character and contrary to the nature and policy of the Boers. The Boers' only hope now is in arousing the sympathy of the world by the justice our caure and our conduct of the war. Such an act as whipping and shooting peace commissioners might lose us that sympathy."

DEWET LOSES FRIENDS.

IBY THE NEW ASSOCIATED PRESS—A.M.!

NEW YORK, Jan. 14.—A dispatch to
the Tribune from London says for
many months past the average Englishman has had a warm corner in his
heart for Dewet. The pluck and intrepidity of the dashing Free Stater
and the wonderful manner in which he and the wonderful manner in which he is carrying on a losing fight against overwhelming odds appeals to the finer instincts of the people of England, who are sportsmen in the best sense of the term. As a matter of fact, vegy little interest is taken in any changement in which Dewet is not directly or indirectly engaged, and not even a budget of alarming messages from Cape Town about the invasion of the colony cause anything like the excitement which attends the news of a raid on the British lines, whether successful or otherwise, by the commandant

Dr. McLaughlin's Electric Belt.

Be true to nature, be true to yourself and your friends. Regain your health. Give the color of vigor to your cheeks, the sparkle to your eye. What use has the world for a man who has not the courage to face the battles of life? Buch courage comes from a system greatly endowed with the vital force of Electricity. Regain your strength for good by using this wonderful Electric Bett.

You Need Not Pay Until You Are Cured.

I know that my Electric Belt will cure Nervous Debility. Loss of Vigor, Rheumatism, Lame Back, Physical Decline, Pains and Aches in all parts of the body, and I don't ask any man—if he will secure me—to pay until I have cured him. Send for Book. Try It To-Day. If you are close enough to call, do so. Let me show you the difference between my up-to-date appliance and old-style burning electric belts. Let me prove to you why my Belt cures when they fail.

If you can't call, write far my beautiful descriptive book, showing how my Belt is used and giving hundreds of letters from grateful people. Call or

of the Boer forces in the Orange River Colony.

It is by no means improbable, however, that a revulsion of feeling will be induced, in England at all events, toward the redoubtable enemy of the British Empire by Gen. Kitchener's latest dispatch. Flogging as a mode of punishment is distinctly opposed to the code of civilized warfare and the British commander's announcement that by Devet's orders three agents of the peace commission have been flogged in a Boer laager near Lindley, is sure to call forth some hostile comment, which will not be any less bitter because one of the victims of this instance of petty tyranny who was, indeed, shot

these positions he could have easily held a pistol to his eye with his right hand and pressed the trigger with his thumb, the recoil of the pistol throwing his hand down across his breast. Following out this theory, the detectives believe that the party who may have loaned the pistol to Stade called for it Saturday morning at Stade's room and took it from the hand of the dead man for fear it might connect him with the crime.

No assassin would have leaned over Stade and shot him down through the face when he could have placed a pistol to the man's temple or side of his head, and from the position of the body a murderer would probably be forced to go around to the right hand side of the bed and hold the pistol down into Stade's face.

NOTHING IN IT.

The detectives and the Coroner put no faith in the attempt to cast sus-picion on Tom Kearns as the murderer, picion on Tom Kearns as the murderer, because he had a few blood spots on his trousers the day of the crime, for those spots can be accounted for. When the undertakers carried the body down stairs, blood from the bullet wound dropped on the matting that covered the stairway. The proprietor of the house noticed this, and told his employe, Kearns, to take up the matting. In doing this he knelt on the stairs and a stray drop of blood was transferred to his trousers.

The undertakers received a telegram yesterday morning from Mrs. Stade in San Francisco, which said that the family had no money with which to bury Stade's body, and that the undertakers would have to dispose of it. They will probably do so today by burying it in the potter's field.

ABOUT MRS. KEENEY.

STADE MUCH WITH HER.

IBY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, Jan. 14.—[Exclusive Dispatch.] The Mrs. Keeney referred to in the dispatches from Los Angeles concerning Stade, is Mrs. Daisy V. Keeney, wife 'of Frank W. Keeney of this city, who sued her for divorce last year on account of her alleged misconduct with Stade, and who dismissed his suit last November. Mrs. Keeney was granted a divorce from Keeney is December for divertion.

Keeney stated that his wife went from this city to Los Angeles for a change of climate. She resided at No. 1147 Maple avenue, in that city, and Stade was a frequent caller there before the divorce suit was brought. Keeney described him as "a certain man going under the name of J. Stade, who was called 'Dr.' Stade, and who pretended and held himself out to be a 'magnetic healer,' hypnotist and teacher or professor of suggestive therapeutics."

Keeney's mother was residing at the Maple-avenue dwelling and because she objected to Stade's numerous visits to her daughter-in-law, Mrs. Keeney, it was alleged, compelled her to leave. Stade prolonged his calls until after

DOG CATCHER SURRENDERED.

How a Little Lisping Los Angeles Maiden Melted That Supposed-to-be Heartless Functionary.

Heartless Functionary.

The Los Angeles dog catcher for once, has been vanquished. In other words, after he had deposited a shivering, slinking "tramp" cur inside his wagon, he gave the animal its liberty and lost his fee from the city.

Now the dog catcher is no respecter of persons. Whenever he finds an animal running about the streets without a tag or collar, he promptly hauls the canine in, if he can catch it.

The dog catcher was out on his official duty on Pico street Saturday afternoon. He hadn't caught a tingle stray cur since noon, and he was getting hungry for dog meat.

A victim was soon sighted. On the edge of the curbing sat a little girl of 5 years, playing with a small, dark-colored puppy. The animal was jumping about uttering short velps of joy, such as a puppy knows how to express, and chasing a stick which the little damsel threw out into the road. The dog catcher quickly noted that the animal wore neither tag nor collar, and he promptly jumped off his wagon and made a dive for the frisking canine.

He was not quick enough, however. The puppy uttered half a dozen short yelps, and ran into the arms of his little protector, who immediately folded the frightsmed aginual in, her

British Columbia, can only be moved down at great expense. Even at that vessels are lacking to move an effective quantity each month, four of the largest freight transports having been wrecked recently. These are the only mines where California can get her supply without going to Australia, where the supply is uncertain and freight charges very heavy. At present the Santa Fé is securing a partial supply of coal from the Kanasa section, while the Southern Pacific ships through Port Los Angeles, as far east as El Paso, to operate their system.

Bhould the improbable occur, and the strike in the New Mexico field be settled immediately, it would be a month before California dealers could begin to fill their empty bunkers. The Santa Fé Railway Company would take all the first coal released for its own use. There has been a coal shortage since the Klondike boom, two and one-half years ago, but the real famine on this Coast began the 4th inst., when the shortage threatened to shut down many of the large steam plants in the north. Coal dealers of San Francisco acknowledge that instead of getting better the famine is growing worse. Says a large northern dealer:

"All the coal the Washington mines can furnish dees not supply the de-

mate oil enterprises in California is agitated among developers of petroleum. The East has been and is flooded by the advertisements of crooked concerns, such as "Oid Glory" and the inevitable result is bad repute for all oil corporations on the Coast.

The situation has gone from bad to worse, the victims of these swindles growing in number daily. The result is that eastern newspapers are handing California oil men some severe left-handed compliments, and many investors, who would otherwise bring their capital here, are beginning to fight shy.

TRADING LIVELY.

Trading was lively on change yesterday, Globe proving sensational. This stock, which sold previously at 19 cents, started at 21½ cents and jumped to 26 cents before the close in the afternoon. About 9000 Reed changed hands at from 70½ to 72 cents, Continental also going up a cent. Westlake went at 26 cents, seller 30 days, but sold at 27 cents straight.

Bank stocks found little sale, four shares of State Bank and Trust going at 30.

Since returning to Bakersfield, at the time that the present receiver at Visalia was appointed, he has conducted a small weekly newspaper. Maid was employed by him as a printer.

MORE GOOD WELLS

The pioneer in the use of drive pipe in his county is the San Francisco-Mc-

ive. Two other wells were ruined beyond hope of saving, a result due in each instance to the collapsing of the casing, which occurred when continued driving had broken down the strength of the threads. In No. 3 the pipe is following without any trouble, and there is little doubt that success will be achieved. The territory is demonstrated to be all right, as in both the first attempts oil was struck in good quantities, and in one of the wells the oil now stands at the surface, having forced itself up through 200 feet of tightly-packed sand.

Wesley Clark of Los Angeles, the initial of whose surname was drawn upon to furnish the first letter in the title of the C., B. & W. Company, was the star actor in a little comedy yeaterday. Mr. Clark had started in a buggy with two friends to take in the river district, and instead of following the regular road they went up the south side of the stream and attempted to food it opposite Doheny's. When half way across the wheels began to sink in the quicksand. Mr. Clark, to save himself, abandoned his friends to their fate and jumped upon the horse's back, but the shimal had been having a hard time to make progress as the conditions were, and when the extra weight was added he went deep into the sands that a mistake had been made, so he jumped a second time, and upon a small island. But the island was as treacherous as the river bed. Mr. Clark struggled and floundered and finally worked his way to the bank, where his companions, who had sat still in the buggy seat, were waiting for him, having been safely carried across by the horse, which only wanted a fair show. They forgave Clark, brought him back to town and put him in bed, where he stayed until the landiady of his lodging-house had dried out his clothes by the kitchen fire.

The Monte Cristo, No. 7, is beating the record made by No. 6 when it was first perforated. It is doing oil and froth at the rate of a barrel a minute, 1404 a day, which when more than ample allowances are made, is equal to 500 clear oil.

The Petrol

the river field, demonstrated that the profific sands extend to that point, which is confirmed by the success of the Petroleum Development on the same section, but half a mile to the southeast. The latter company has foust finished a well at that point which contains 183 feet of rand. It has not yet been perforated.

This provision would work thus: If a competing road—say the Traction Company—with, let us say, ten mile of road, should desire to build a one one-half of one-tenth, or 5 per cent. while a big road—say the Los Angeles Railway Company, with forty miles or more—would only pay one-half of one-

ortieth, or 1% per cent. Section 5, in regard to bidding, ena bles an existing road desiring to beel out competition to make it impossible for a new road, or an existing road de-siring extensions, to come in.

The scheme of paying the city for a franchise by cash and a percentage much of a farce, if not a fraud. There much of a rarce, it not a fraud. There is seldom more than one party that is prepared to accept any particular railway franchise in good faith at any particular time, so it is much like putting up to auction an elephant that has been attached in a menagerie. As to the percentage, a rival corporation 100 per cent. of the receipts, and thus tie up the franchise for two years or

tie up the franchise for two years or so. This has been done by the Los Angeles Railway Company recently, not once, but twice.

Again, there is a provision of the Civil Code (section 502.) not affected by these measures, which permits a corporation, with consent of the Council, to retain its completed portion of tranchise and forfeit the rest. Thus. cii, to retain its completed portion of a franchise and forfeit the rest. Thus, a company can get a franchise for a road over a dozen blocks, and only construct it upon one of them. This makes bona fide competition practi-cally impossible.

cally impossible.

The act under which all recent applications for franchises have been made was passed in 1897, taking effect out may 13 of that year. Between May 3 and May 11 five franchises were granted by the City Council, under the law as it stood prior to the taking Co

The Los Angeles Railway Company apparently aspires to play the same part in this city that the At Pasadena the Terminal Railway

The people of Los Angeles have gained one big victory over the Southern Pacific Company and they are certainly not going to permit themselves to be scared or bull-dozed by a local street-railroad cororation, even if the chief of it is a outhern Pacific man. A man who has whipped an octopus in the briny deep is not likely to display alarm at the gyrations of a toad in a puddle.

Meantime, our legislators, both municipal and State, should understand that the people of Los Angeles fully realise the situation in regard to this local railroad business, and are not disposed to put up with any more nonsense. Statesmen who are wise, and who expect future favors from the people, should govern themselves accordingly.

When the New York importers of citrus fruit saw the result of that comparative test of California and Italian lemons referred to in these columns lemons referred to in these columns a few days ago, they were much excited and annoyed. First, they eaid we do not need a protective duty if our fruit is so superior, and then they declared the test was unfair, and that they would have a new one. Now, according to the New York Journal of Commerce, the importers say they cannot get an-other test made because of a lack of funds to pay for a thorough chemical analysis. The first analysis, according to the Journal of Commerce, cost \$20. Comment is superfluous.

The Los Angeles Railway Company
The Los Angeles Railway Company set their heads against any more enactments at this session than may be absolutely necessary. "Nevertheless," adds the San Antonio paper, "other members are provided with bills and resolutions enough to keep the Legis-lature busy for a long time if the half of them should receive consideration."
The legislators who hold the opinion

that "too much legislation is about as bad as none at all" are on the right trail, and it is to be hoped, for the welfare of the State of Texas, that their ideas may prevail over those of the other members who have bills and recolutions "to burn." If the latter would only burn nine-tenths of their bills and resolutions, perhaps the other tenth might be worth considering;

Severus Schaffer is a holdover, but two-thirds of his work is different from and better than that presented last week, and the other third is well worth seeing a second time. His performance last night, through all the difficult feats, was nearly flawless. upon the back of the performer, is of doubtful value because of the danger it suggests.

Will M. Cressy and Miss Blanche Dayne appear in a different skit from theirs of last week. The scene this time is laid away up in New Hampshire, instead of in New York City, and the little drama is called "Grasping an Opportunity." Cressy as the same dear old Uncle Slias Gould is the star attraction. The young woman surprises him at the farmhouse just as he is breaking in an unruly collar to go to the selectmen's meeting. The wiles of the scheming woman are too much for Uncle Slias's plain horse sense, and the situations which are developed are irresistibly humorous.

### EUROPEAN NAVIES.

Russia Made Greatest Progress Dur-ing the Past Year With England Back

in Fourth Place.

BY THE NEW ASSOCIATED PRESSNEW YORK, Jan. 14.—Englan IBY THE NEW ASSOCIATED PRESS—A.M.I NEW YORK, Jan. 14.—England, although the first naval power in the world, has not much to boast about in the matter of naval progress in 1908, says the London correspondent of the Tribune. Not a single battleship was launched during the twelve months—two first-class armored cruisers, one third-class cruiser, four sloops and sighty destroyers completing the list—and no real progress has been made with this year's programme except in the case of the two new second-class cruisers, as the contracts for six new armored cruisers have only just been given out, and the first keel plates of two new battleships will not have been laid until the end of March.

It is some consolation to Englishmen to know that France's naval progress at the same time has been greatly retarded owing to the delay in delivering materials. Russia made great strides last year and in naval progress competition among the powers she easily heads the list. Germany coming next and Japan third, while England only secured fourth place. Russia completed and commenced two first-class armored cruiser and eight destroyers. Moreover, she launched three first-class battleships, one first-class armored cruiser, one first-class armored cruiser and eight destroyers. Moreover, she launched three first-class battleships, one first-class armored cruiser, one first-class cruiser, two third-class cruisers and three destroyers. The rapidity of Russian shipbulding was one of the features of the year.

The fact is, Phoenix cannot stand a carnival every year, no more than Los Angeles, which is eald to be a much larger city, could continue its fiestas year after year. Carnivals are strangethings, possessing an attraction and magnetism only when they come spanmodically—at times when the people want something and do not exactly know what. But to make an institution of a carnival is bound to result disastrously to the finances of the concern. Other cities have tried it and failed, and it is not a surprise to most people that Phoenix suffered the zame fate. COAST COMPETITION NOW FULLY ESTABLISHED.

CHICAGO, Jan. 14.—[Exclusive Dispatch.] Prof. James Taft Hatfield of Northwestern University went on record today as the triend of the much-decried cigarette. The professor is the head of the German department of the university, and it was in his class in German literature that he told of the benefit to be derived from the use of the seductive weed. It all came about as the result of an attempt by Prof. Hatfield to tell the value of change, of inspiration, for the mind wearied with excess of sameness.

"When I was at Johns Hopkins University," said Prof. Hatfield, "and had a difficult task to study, I would sit down and light my cigarette and meditatively smoke."

BUMMARY OF THE DAY.

Bids to supply 5000 feet of needed for hose were opened in the City Council yesterday and referred to the Fire Commission.

The deputies in the health office save been refused transportation by the Lox Angeles Railway Company, whereat there is wrath.

The approval of the Mayor's appointees on the Board of Health was again deferred on a technicality yesperday.

Y. Bilderrain has been taken to trial on a charge of offering a bribe to a public officer.

Joe Silvas, alias Cornish, an incorrigible Mexican youth from the Freston School of Industry, was before Judge Smith yesterday to be sent to the ponitentiary.

The configuration of Health was any of the Council approved and also elected the Mayor's appointees, thus covering both sides of the difficulty.

The matter was referred to the City Attorney yesterday for an opinion as to the powers of the Council, despite the dissenting votes of Todd, Walker and President Powers.

COUNCIL NOTES. MISCELLANEOUS DOINGS.

MISCELLANEOUS DOINGS.

The City Council yesterday ratified the appointment of J. Ross Clark as a member of the Board of Library Trustees made by Mayor Snyder. The appointment of Ira Hemington as Public Market Inspector by Tax Collector White was also approved.

The Street Superintendent was instructed to have Sixth street between Hill and Figueroa streets, which has been recently repawed, swept in accordance with the street-sweeping contract.

Hill and Figueroa streets, which has been recently repaved, swept in accordance with the street-sweeping contract.

There is a continual seepage from the Third-street tunnel and the waste water collects at the corner of Third and Hill streets. The Council yesterday ordered that this seepage be piped into the sewer.

The request of the Fire Commission that the Council advertise for new Pox bollers and trimmings for Ahern's engine No. 7 and Amoskeag engine No. 1 was referred to the Fire and Water Committee.

A petition asking the opening of San Julian street from Pico to Fifteenth street was referred to the Board of Public Works.

There is a gravel pit near the corner of Sixteenth and Long streets that the residents desire to have declared a nuisance. Part of the pit is located on a city lot. The matter was referred to the Board of Public Works.

An ordinance was passed yesterday making the Board of Fublic Works.

An ordinance was passed yesterday making the Board of the board with respect to the examination of bollers. The Boller Inspector is made amenable to the board under the ordinance.

In drafting an amendment to the ordinance regulating oil wells a former City Attorney left out the section providing for the appointment of an oil inspector and his assistant and prescribing their duties. An amendment inserting these provisions was adopted yesterday. It is said that owing to a provision in the salary ordinance there will be no question raised regarding the recent appointment of A. N. Hamilton to that office.

For sanitary reasons Health Officer Powers yesterday recommended that sewers be constructed on Mollino street between Palmetto and Fourth street; on Fourth street from Palmetto to Carolina, and on Gladys avenue from Seventh to Eighth street. The recommendation was adopted by the Council and the engineer instructed to present the necessary ordinances.

An actension of fifteen days was granted for the completion of the storm drain on Main street between Clover street and Avenue 21.

FIRE COMMISSION.

FIREMEN WANT MORE PAY. The duck hunters of the Fire Commission held a short session at the City Hall yesterday morning. The board entirely failed to maintain the pace set at the first meeting, as nothing but routine business was transacted. No further developments in the agitation for the retention of Charles Fuselehr as assistant fire chief came to light.

The firemen and hosemen of the de-

to the Chief for investigation and report. A committee of property owners was on hand to protest against the

partment presented a petition signed by fifty-one employés, asking that their salaries be raised from \$50 to \$60 at month. In support of their petition the firemen call the attention of the board to the fact that the State laws require employés on public work to be paid \$2 for eight hours' work. They show that their regular labors require about eight hours of work, and that they are on duty day and night, Sundays and holidays; that they are required to supply themselves with uniforms and clothing demanded by the regulations amounting to \$70 or \$100 per year; that their work is skilled, and that they have no evenings at home with their families.

There was little discussion of the petition yesterday. The funds allowed the department will not admit of the increase new, but on motion of Mr. Kuhrts, the board adopted a recommendation to the Council, asking that the increase be granted and allowance made in the estimate for the next fiscal year. The matter came before the Council at the afternoon session yesterday, and was referred to the committee of the whole.

All this time Bilderwain has been enjoying liberty on ball.

The trial began yesterday morning. It consumed the forencon impaneling a jury. The case is prosecuted by Deputy Diafrict Attorney McComas, while the defense is in the hands of ex-Senator White and Earl Rogers, Esq. They were very particular about the men they wanted on the Jury, and subjected all comers to vigorous questioning. While the Jurors would state that their sympathies were not with cockfighting as a sport, nor cockfighters, they all felt that they could give Bilderrain a fair trial.

The defendant is charged with having offered and given Craig a 52 gold piece on March 17 to be out of town on the following Sunday, so as not to disturb a cockfight that had been arranged on that day. Craig took the money and gave Bilderrain back 25 cents in accordance with the latter's request, but the officer did so, it seems, to get a case against him. Chief Eiton was in hiding in the Humane Officer's apartment at the Police Station, and overheard the entire transaction. Bilderrain is said to have called several times to consummate the deal, but always found Craig busy.

Fowler.
At noon yesterday an adjournment was taken until this morning at 10 o'clock, when the testimony will begin. Some complicated legal questions enter into the trial of the cause. Is the Humane Officer a public officer? Can public officers conspire to trapmen into crime?

There was another struggle before the Supervisors yesterday over the sardine. The question arose on the hearing of a petition numerously signed by Los Angeles-county angiers that an ordinance be passed prohibiting seine fishing within a thousand feet of any wharves abutting into the Pacific Ocean. A protest to the request for restrictive legislation was filed by Redondo fishermen and others. This put the Supervisors between two contending interests—those of the sporting fishermen and those of the commercial shermen. Both seemed smittled to There was another struggle before the

ishermen. Both seemed entitled to protection.

Two of the signers of the petition, Messrs. Fairbanks and Hedderly, believed that the interests of the market fishermen could not be materially affected by a limit, while the sport of ishing from the wharves could be greatly augmented. They thought a limit of 250 or 300 feet would answer their purpose.

W. W. Woolley, a Redondo fisherman, testified that a thousand-foot limit would mean a loss of \$3000 or limit would mean a loss of \$3000 or limit would mean proportionate loss.

H. B. Ainsworth, secretary of the Redondo Improvement Company, was a protestant, but he thought a limit of about 200 feet would not be objectionable to either interest.

J. H. Lapham, president of the Callfornia Fish Company, was positively against any restriction. His company lives on sardines and he said they just hover about the wharves.

County Recorder Wade, member of the fish company, also made pistatorial remarks against the proposed ordinance, and gave a vivid account of how schools of yellowtail with brains chase schools of sardines out onto the beach oftentimes, or keep them bunched round the piles of the wharves.

The board took the matter under advisement, in the hope that contending interests might get together and compromise.

LEVY WON'T HAVE TO ANSWER.

LEVY WON'T HAVE TO ANSWER.

A formal order was made by Judge Smith yesterday, dismissing the contempt proceedings begun against Al Levy by the grand jury, because he refused to answer a certain question put to him by that inquisitorial body in an investigation of bribery charges in connection with the old Police Commission.

The hearing had been set for 7 o'clock last night.

The reason for dismissal was that Levy, having been summoped before the grand jury in another matter, disclosed the name of the gentleman "who had said momey to him," whose name he so steadfastly refused to make public before. It is not known whether he did so inadvertently or of his own free will. The jury, moreover, claims to have learned the man's name from another source, anyway. Another consideration for the dismissal of proceedings was as to the materiality of the question. Frank G. Finlayson, Esq., attorney for Levy, set up its entire irrelevancy.

The grand jury this week is doing

young man now finds the penitentiary staring him in the face. During his stay at Ione Silvas made four or five ineffectual attempts to escape, and was several times caught in the possession of dirks and knives with which he had wrought bodily harm on other inmates of the school.

"Now that you have been sent back to us," began Judge Smith yesterday, "we shall proceed with the burglary charge. In 1897 you pleaded guilty." Silvas stood limp with despair.

"Was it daytime or nighttime that this burglary was committed?" asked the court.

"It was done in the daytime," admitted the boy.

"Burglary in the second degree, finds the court," said the judge. "What time for sentence?"

"Do you want to waive time for sentence?" asked Deputy District Attorney-McComas, urgently.

"Not guilty," answered the boy, innocently, but Judge Smith continued the time for sentence until Saturday to give him an opportunity to see his mother, who lives at Vicentia, near Anaheim. To visit his mother is the excuse Silvas makes for his many escapes from Ione, and now he wants to see her, he says, before the penitentiary closes in around him. It may be a hoax, but the court has instructed the officers at the County Jail to aid the boy in every way to communicate with his parent.

Miss Logie's Papa and His Friend are on Trial Charged With Battering the Papa of Young Mr. Dorfmeies

Miss Logie, aged 4, having punched the face of her friend and neighbor, Mr. Dorfmeler, aged 3, various things happened. Mr. Dorfmeler's father went to the doctors to be patched up, and the papa of Miss Logie went to the Police Station. Yesterday he was tried before Justice Morgan for having bat-tered the elder Mr. Dorfmeler. He had a friend named Young who helped him in the little matter of the Dorf-meler family, and Young was tried,

Mrs. Dorfmeier's language was somewhat indefinite. Master Dorfmeier was also somewhat uncertain about the pain of having Mr. Logie's fingers in his eyes. "Yes I did," retorted Mrs. Dorfmeier with sudden heat.

"What did your husband call these gentlemen?"

CLASSES AND PRIZES

# There Are More Than 500 Prizes.

They will be awarded, not alone to those sending the largest number of subscriptions, but to those sending the largest number in proportion to the population of the town or city in which they work. To that end, the cities and towns have been divided into five classes, according to population. Every person entering this contest has the opportunity to win a prise in every class by taking subscriptions in other towns after completing the work in the first one.

Furthermore, the aggregate number of subscriptions taken by each in the various towns will be credited to him or her in the general count, thus greatly enhancing his or her chance of winning one of the large General Prizes.

# Payment as the Work Proceeds.

During this contest a commission of \$1.20 will be allowed on each yearly subscription that is accompanied by the cash, provided the subscriber is not already taking the paper regularly, and a proportionate amount if the subscription is for a shorter period than one year. This will be payable on receipt of the subscription.

# May Take Them On Time.

A contract with an old subscriber, on a blank form that we will furnish, that he will continue taking and paying for the paper monthly, at the end of the month, for a specified time, will be accepted as a subscription for the number of months specified in the contract. A similar contract with a new subscriber will be accepted, but in neither of these cases will any commission be allowed. The subscriptions count merely in the competition for prizes.

CLASS FIVE.

# How the Count Is Kept.

The count will be kept in months-a yearly subscription counting 12 months. a half-yearly six months, and so on. Whether one man subscribes for ten months or ten men for one month is all the same. It is the number of months that counts in the competition for prizes.

# Must Be No Cutting of Price to Subscribers.

Getting subscribers for The Times, the biggest, brightest and best newspaper on the Pacific Coast, is easy work, because, practically, everybody wants it. The subscription price for The Daily Times (seven papers a week and including the Sunday Magazine-unrivaled by any similar publication in America). is 75 cents per month or \$9.00 per year, and we will under no circumstances suffer the price to be reduced to any subscriber. This large disbursement places minima. disbursement places mining among the most profitable of the country's industries. The metal mines paid \$51,502,-000, or 39.3 per cent. of the total, and the industrial companies \$79,439,000, or 60.7 per cent. Among the leading payers were the copper mines, with \$33,433,000 to their credit, the gold and silver mines, \$13,940,000, and the petroleum companies, with \$48,316,000. There were also many metallurgical companies that disbursed large dividends, and the list promises to increase materially in 1901."

LOCAL PRODUCE MARKETS,

Provisions develop a number of important changes as the week opens. They are not easily classified, as some go up, others down. Reference is made to the list.

Butter is rather easy but not quoted lower.

Eggs are a little weaker, most sales being probably at 26 cents. No change is noted in cheese.

Fresh meats are all a fraction dearer. Vegetables of all kinds are in light supply and prices are unusually high. Choice onions and potatoes are very high. Dried chiles are firm. There is a good demand for shipment. Evaporated chiles are becoming very popular, costing if cents per pound. They are shipped in heavy boxes, which add to their cost, but carry them safely.

Beans are quiet, but very firm. Berries are scarce and firm. Good apples are firm. Less than 75 cars a day are going out. Pricus are firm. Fine poultry is scarce. Dressed is pientiful. There is a good demand for fine live stock, and prices are firm. Game is scarce. A few hares in yesterday brought \$1.75 per dosen. Wild ducks would probably bring more than quoted prices.

In a wholesale way rock cod were the only fresh fish in yesterday.

Honey is scarce and firm.

preferred. The National Salt stocks and incomentations of the points of samed 2 and 2%, respectively, and Lead preferred recovered 5 points of its recent heavy decline. American Tobacco was 2½ points over Saturday at the highest. But these points of strength were the exceptions in the market, although they had an effect in railying other stocks and in largely reducing the average net losses. The market gave unmistakable evidence of a decline in the speculative furore, and a disposition to revise the more sanguine estimate of the high price already attained for many stocks and those expected for others. Disappointment was keenly manifest among the holders of St. Paul over the failure of confirmation of the many stories of a lease to Northern Pacific, new pretty the roughly discredited. The stock was forced at one time below 150, which was 44 below Saturday, and closed with a net loss of 3½. The other grangers were weak, apparently in sympathy. The local traction stocks relapsed sharply after the buoyant movement of Saturday, and Manhattan closed weak at the lowest after a midday raily at a net loss of 2½. The Pacifics were visorously sold, but Missouri Pacific showed a good recovery. At one time the majority of the active stocks in the list were from 1 to over 4 points below Saturday. No admissions could be secured from any international houses of any arrangements to ship gold, but with sterling exchange continuing to advance, reserves of money rapidly increasing at this center, and continued uneasiness over the future in London, the conviction is general that a considerable sum will see out, and that the movement will be inaugurated Wednesday. The railroad bond market was weak in symmathy with stocks; total sales \$2.550.000. United States bonds were unchanged.

NEW YORK, Jan. 14.—For the first time since he left this city to take up his work in Washington, the Rev. Dr. T. Dewitt Talmage appeared on the platform of the Academy of Music last night. Ten thousand people were present to welcome him. The occasion was the twentieth anniversary of the Bowery Mission, where Dr. Talmage was one of the founders. The programme included Dr. B. S. MacArthur, Dr. A. C. Dixon, J. Wilbur Chapman and others.

"The sympathies of good people everywhere," said he, "are with the men who are trying to purify this city. New York will be taken for God. The century opens with the brightest prospects of any century that has gone before.

"We have read at a distance of the efforts that are being made to purge this city of its vice and immorality, and some have said, 'It cannot be done. New York cannot be saved.' But I tell you it can be saved and it will be saved.

"This century is to witness a great revival of religion. The most popular book on earth is the Bible: the most popular institution on earth is the church; the most popular name on earth is Jesus. Cities are to be redeemed. Official authority can do much, but nothing can take the place of the gospel of God.

"The church is uniting its sympathies. We have had in the church fastidious ones who don't like crowds, who say, 'Don't put any one in my pew,' We say to them, 'Haul in your elbows: we are going to put people next to you that you never expected."

NEW YORK, Jan. 14.—Felix Adler talked on "The Degradation of Great Cities and the Remedies" before the Society of Ethical Culture in Carnegle Hall last night.

What is a bad city?" Dr. Adler asked. "New York, Philadelphia and Chicago we have put the burgiar in charge of the bank. That is all the trouble. In this city the maintenance of law is in the hands of those who are profiting by the violation of law.

"Now, this state of affairs exists in all the large cities of the country. And at the root of all the trouble is partisan dictatorship—the boss system, as it is called. Of course, the people want a scapegoat. At present, it happens to be the gentleman with the conspicuous personality who has the kindness to run the city of New York for us. People even talk as if the whole trouble would be mended as soon as we give him his congé. Such talk is, of course, futile. Two Mexicans Jealous Over a Woman Decide on a Duel, but One Runs Away and Suffers Soldiers from Philippines.

AND BROKEN OFF.

BAN DIEGO, Jan. 14.—[Regular Correspondence.] The details of a stabbing affray are "leaking out." The story is that two Mexicans, Tieto Espinosa and Chaco Osnuno, became jealous over a woman, and that one evening last week they met in a lumber yard on the water front and agreed to settle it with a duel of knives. But when Chaco Osnuno saw Espinosa rushing for him with murder in his eye and a big knife in his hand, his courage falled him and he turned and fied. Espinosa gave chase, came up with his adverhim and he turned and fied. Espinosa, gave chase, came up with his adversary, and stabbed him in the back, just under the shoulder blade. The blade of the knife was broken off with the major part of it in the Mexican's back. Espinosa then hurried away to a place of safety, and it is believed that he is now in Mexico. The surgeons removed the blade of Espinosa's knife, and the wounded man is in a fair way to recover.

A heavy fog is sweeping over Coronado tonight, and with this hange in the weather there should be a change in conditions tomorrow that should insure far better work.

The attendance was possibly the largest that has ever been seen at a field trial on the Coast. The large number of ladles present was quite noticeable. About the center of the long ward in which he was located is one of several dormer windows opening upon a roof sianting at something more than 45 deg. Slocum quietly reached this window and broke a pane of glass with his clenched fists; then, stepping back a short distance, he leaped head first through the opening, slid down the steep roof and fell to the ground, where he lay, limp, when the attendants reached him.

It was all done so quickly that his astonished fellow-patients, even had they known his intention, would not have had time to reach him and prevent it.

When taken to a room provided for him, it was found that, besides sustaining a number of elight cuts on his hands, face and head, Slocum had struck the back of his head on one of the steps reaching to a porch on the line of his fall, and his skull was fractured.

An obstreperous hobo, a burly negro, who has been an ugly customer is the County Jail, made an attempt to escape this morning when ordered into line to march to the rock pile. He made a run toward the depot, but a dozen citizens gave chase and caught him. He refused to go back to jail until "persunded" with the butt end of the siller's gun. He gives the name of James Grant and the officers think he is worse than an ordinary hobo.

ERRING YOUNG MAN.

REDONDO, Jan. 14.—[Regular Correspondence.] Louis Save, about 18 years of age, was arrested this morning for stealing a horse, cart, harness and shotgun from J. J. Lembke.

Young Save had been working for Lembke for the last six weeks. He was paid his wages last Saturday, and went to Los Angelea. He returned to Redondo Sunday evening, and when Mr. Lembke's sons went home in the evening, Save went with them.

When they arrived home young Save would not go to bed, but took the shotgun and said he was going duck hunting. Going to the stable he took the horse they had driven from Redondo, hitched it to a road cart, and drove to town, where he sold the horse, cart and harness to William Usrey, a saloon-keeper, for \$15, and disposed of the shotgun for \$4.

Mr. Usrey did not pay the boy for the rig until this morning, and purposely delayed the young man from catching the morning train. Usrey drove out to Mr. Lembke's ranch where the horse and cart were identified. Immediately upon ascertaining that the rig was the property of Lembke, Usrey telephoned to Constable Maxey to arrest the boy.

Mr. Lembke swore to a complaint charging the lad with grand larceny, and fixed the bail at \$1000. Save had arranged to lesve for San Francisco tonight on the steamer Wastport, which is discharging lumber at the wharf.

Mr. Lembke's sons say they think the boy was somewhat intoxicated last light when he drove home. He was in a saloon drinking beer when arrested this morning.

She dropped anchor off the long wharf to await her release from quarantine. Dr. Hill Hastings of the Marine Hospital Servlice, and government quarantine offi-cer, came down from Los Angeles on the first train to board the steamer and make the required inspection. The San Mateo will be discharged as rapidly as possible, and her cargo will be hauled inland to relieve the coal scarcity. She has about 4200 tons of coal.

A PRIVILEGE Thrown Away Entirely

It is curious to observe how hard it is for some people to give up coffee drinking after they have become, at least half satisfied, that it is the cause of their ill health, but it becomes an least haif satisfied, that it is the cause of their ill health, but it, becomes an easy task to give it up when one takes Postum Food Coffee in its place, providing, of course, that Postum is made according to directions, for then it has the rich, beautiful color, and a satisfying taste, while the rapid improvement in health clinches the argument. A young lady at Cambridgeport, Mass., says: "When it was shown to me plainly that my ill health and excessive nervousness was largely due to the coffee habit, I realized that I must give it up, but it was next to impossible to do so. However, I made the trial and took Postum Food Coffee, with the mental reservation of the 'privilege,' as I termed it, of drinking coffee once a week.

"Little did I dream what a true friend Postum was destined to become to me. The old stomach trouble left, the nervousness vanished, and good, natural, healthy sleep came to my relief. In less than six months I felt like another person, I was so well and happy.

A Los Angeles Youth Hungered and Thirsted After Pretty Actresses Till His Intellectuals Turned to Sour

Burely "spiled!"

The after-dinner-coffee-spoonful of brains of some "Johnny" of the tribe that waits at the stage doors to "make goo-goo eyes" at the actresses must have addled. Chief of Police Eiton received a letter almost a mile long yesterday from the sweet thing. It was unsigned, but shows that somebody must be hearing funny noises under his hat.

unsigned, but shows that somebody must be hearing funny noises under his hat.

"Johnny" got confidential and told the Chief the whole sad story of his life and love. It seems that he adored an actress in the Neill Company and was led into a series of thrilling adventures. Hated rivals banded themselves together and kept him in the strenuous life.

For six months he has been dodging disguised men who desired to fight duels, run rapiers through his person and assail him on the public highway. This he endured with fortitude and in allence. But lately, a more dreadful calamity befell. "I have been thinking a great deal lately," he says. He must be mistaken on this point.

Still he plunges right into the midst of his adventures with the Neill Company.
"I suess the stage hands must have

"I expected to be called out," says the Johnny, "but the police got wind of the affair."

After that, he says that the Neill Company dressed up as Chinamen and tried to hold him up in the dark corners of the town. They were not successful. One night, while the Johnny was sitting on a beach at the Plaza, a man came toward him in a threatening manner. He walked stiff in one leg so the Johnny knew that he must be carrying a rapier concealed in one of his bloodthirsty designs.

Not long afterward the man with the sword followed the Johnny to the Orpheum and took a seat near him with his armored pant's leg. That week the Orpheum had on the programme a blograph picture of Beerbohm Tree in the death scene from "King John." When this was over the assassin left the theater, neglecting to kill Mr. Johnny after all.

In the letter, the Johnny speaks of this "King John" incident as a very significant matter, but does not explain very definitely how it saved his life. He seems to infer that the man with the sword up his pants was overcome by remorse when he saw the death agonies of poor King John. Maybe he really went out because he wanted a drink. This explanation is suggested for the earnest consideration of the Johnny. Maybe this man was not a very enthusiastic and faithful assassin. It was Johnny's duty to have reported him at once for dereliction. "Honest, Chief," says the Johnny, "if some one don't pull a gun or have a duel every time I go to the theater, I think I am losing my popularity. "They tell me the Bible says, "Love your neighbor as yourself." That's got me'into a lot of trouble. I love all the girls. They are all mine. The men get jealous and the women fight, and I expect I'll be getting a buillet in my slata. I tell you it's no picnic. "P. S.—Please write me about the Oliver-Leslie Company bust up." No name is attached.

CUT JURY EXPENSES

SUPERIOR JUDGE ALLEN ADVO-CATES "STRUCK JURY" SYSTEM.

Intends to Frame a Bill to Be Presented to State Legislature-The Enormous Mileage Bills of Present Iuries Will Disappear.

As it is now, the trial by jury is a heavy tax on the treasury of the county.

Ten days before the trial of each case that is to be tried before a jury, a deposit is made by one of the littigants, and fifty or sixty names are drawn from the jury box. From this number the jury is selected. In the process of selection, however, it is necessary that the whole half hundred and more veniremen be brought into court. Under the present law they are selected from the whole county. Those men who come from the back districts swell the mileage account to a large sum of money. In addition to mileage, which is the heaviest expense, they get \$12 a day.

It is one of the cases where many are called, but few are chosen. The cost of the jury after the panel is chosen, falls on the littigants, but the fees for those who are rejected comes on the public. Buch expense has been saved the county by the judges of Departments Two, Four, Five and Six using the same jury. Still, the tax is fearful to contemplate.

Judge Allen's bill is to provide for summoning a new jury each time a case is tried. The judge is to draw up a list of some thirty-two names. Previous to the trial and without the assembling of the jurors, the littgants and their lawyers are to get together and cut this list down to twenty names. This will be done by alternate challenges. Practically, this allows each littgant six peremptory challenges instead of four as under the present system.

DILL PLANNED TO

Sweeping changes in the jury system will be made if the Legislature passes a bill planned by Superior Judge Allen of this city. Judge Allen is now confined to his house with the grip, but if he recovers his heath and strength in time will frame the bill.

The object of the proposed law is to cut down the enormous expense of the jury trial of civil cases and to simplify the whole system. The plan is to follow the system known as the "struck juries" in vogue in Ohio, Michigan and other Eastern States.

As it is now, the trial by jury is a heavy tax on the treasury of the county.
